Translucent Porcelain tile

Stunning look! A good lighting should be used on the back of the piece, exposing its translucent effect and highlighting the surface's textures. Ideal for spaces that aspire contemplation: entrance hall, panels, countertops and furniture such as coffee tables.

Impresionante visual! Una buena iluminación debe ser explorada por la parte posterior de la pieza, exponiendo su efecto translúcido y resaltando las texturas de la superficie. Ideal para espacios que aspiran la contemplación: hall de entrada, paneles, bancadas y muebles, como mesas de centro.

RITMOS
COLLECTION

Glass mosaic | Pastilla de vidrio

With the colors and sophistication of the pieces in irregular sizes or which resemble fans, any space can bring rhythm to your home and life.

Con los colores y sofisticación de las piezas en formatos irregulares o que se asemejan a la estructura de abanicos, cualquier ambiente transmite ritmo a su casa y su vida.

Satin, la terminación de Portinari que revela al toque la suavidad y delicadeza de la seda.

TechCrystal

SPACES AS NOBLE AS CRYSTAL: MEET
THE TECHCRYSTAL TECHNOLOGY

The TechCrystal technology is a breakthrough in the porcelain tile market. A special layer of glass is applied over the tile, guaranteeing more solidity and longevity. The effect is of an intense glossiness in products. **An exclusive Portinari technology.**

Products with this technology are the right decision for your space. In addition to transparency and sharpness, colors are even more intense, and the perception of amplitude is enhanced, adding value to the property. Also, the TechCrystal porcelain tile is more resistant than other tiles and the sense of depth in the products' design is even more prominent.

Glossiness is a special element in products with TechCrystal technology, as it is superior to other porcelain tiles due to its crystal look. This set of characteristics makes these products unique, having noble aesthetic, with high fidelity and resolution in the reproduction of porcelain tiles and the visuals in which they are inspired. The products acquire the look of metal, cement, wood, marble and stone in a variety of colors.

With technological innovations it is possible to provide unique experiences to our clients, inspiring them with the creative process and technological innovation, resulting in differentiated products with design, quality, durability and sophistication.

AMBIENTES NOBLES COMO EL CRISTAL: CONOZCA LA TECNOLOGÍA TECHCRYSTAL

La tecnología TechCrystal es una innovación en el porcelanato. Sobre el revestimiento se aplica una capa de vidrio especial, lo que asegura una mayor resistencia y durabilidad. El efecto resultante es de un brillo intenso en los productos. **Una tecnología exclusiva Portinari.**

Los productos fabricados con esta tecnología son la opción ideal para sus ambientes. Además de la transparencia y nitidez, los colores son más intensos y se refuerza la sensación de amplitud, lo que da más valor al inmueble. Asimismo, el porcelanato TechCrystal es más resistente y la profundidad de los diseños se destaca aún más.

El brillo es un elemento especial en los productos con la tecnología TechCrystal, que llega a ser superior a otros porcelanatos, proporcionando la apariencia de un cristal. Estas características hacen de estos productos piezas únicas, poseedoras de una estética noble, con alta fidelidad y definición en la reproducción de los porcelanatos y los elementos en que se inspiran. De esta manera, los productos adquieren el aspecto de metal, cemento, madera, mármol y piedra, en diversos colores.

A partir de las innovaciones en tecnología es posible ofrecer experiencias únicas a los clientes, inspirando a todos con el proceso de creación y las novedades tecnológicas, resultando en productos exclusivos con diseño, calidad, durabilidad y sofisticación.

Visual variation

Variación visual

Recommendations for installation of products with high visual variation.
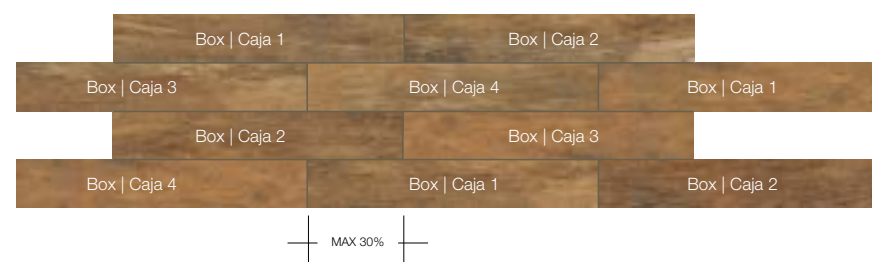

In these products you will find one piece different from the other. It provides ambients a natural and harmonious look. The best result is obtained with a good distribution of the pieces in the installation.
Follow these steps:

- Open 4 (or more) boxes;
- When laying sequentially take a piece of each box;
- Continue to take a piece of each box until you finish all the pieces;
- Open new boxes and proceed the same way to finalize the installation.

Recomendaciones de asentamiento para productos con gran variación visual.

En estos productos se encuentran una pieza distinta de la otra. Esto proporciona neutralidad a las ambientaciones, formando un conjunto variado y armonioso. El mejor resultado se obtiene con una buena distribución de piezas en la instalación.
Siga los siguientes pasos:

- Abrir 4 (o más) cajas;
- Para instalar el producto, agarre en secuencia una pieza de cada caja;
- Siga en la secuencia agarrando una pieza de cada caja hasta finalizar todas las piezas;
- Abrir nuevas cajas y siga de la misma forma hasta finalizar la instalación.

Box | Caja

1   2   3   4

Box	Caja 1	Box	Caja 2	
Box	Caja 3	Box	Caja 4	Box	Caja 1
Box	Caja 2	Box	Caja 3	
Box	Caja 4	Box	Caja 1	Box	Caja 2

MAX 30%

For layouts with overlapping length, the same guidance should be followed. Not forgetting that the overlapping length should be a maximum of 30% of the length of the piece.

Para instalaciones con traslape entre piezas , la misma orientación debe ser seguida. No olvidar de que el traslape debe ser como máximo a 30% de longitud de la pieza;
